Scholarship Evaluation: Popular Consumption. Vulgarization of Marxist interpretation of the historical development of the socioeconomic pattern in China

Review: This book, which is Volume I of four projected volumes on this subject, deals with the study of the new socioeconomic structure of Communist China. Chapter one of the four chapters deals with the theory of the socioeconomic structure; chapter two with the Chinese socioeconomic structure before and after the revolution; chapter three with developments in the relations between productive forces and production; and chapter four with the socioeconomic structure of the New China. Discusses the impact of the Opium War on feudalistic Chinese society; the effect of foreign capital investments on the Chinese economy; and gives the present economic pattern in China as outlined in the Common Program.
